

The EU AI Act

What does the AI Act do?

	1	Creates harmonized rules for the placing on the market, putting into service and use of AI systems
Prohibits certain AI practices	2	
	3	Establishes requirements for high-risk AI systems
Creates transparency rules for certain AI systems	4	
	5	Creates rules for the placing on the market of general-purpose AI models
Creates rules on market monitoring and enforcement	6	
	7	Establishes measures to support innovation

The EU AI Act is now published – the clock to compliance starts ticking.

The European AI Act was officially published on July 12, 2024, marking a crucial milestone for any organization seeking to develop or use artificial intelligence.
